Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Portland Cement: Its Manufacture and Use The following monograph is the outgrowth of a short course of lectures delivered by me each year to the Junior Engineering students of the State University of Iowa, upon Limes, Mortars and Cements. Owing to the great increase in the amount of Portland cement used and the great value it possesses as a building material, this monograph treats only of the making, testing and using of Portland cement. The term Portland Cement as here used means an artificial cement made by mixing in certain known proportions, clay and chalk containing silica, alumina, iron, and carbonate of lime, and burning this mixture to the point of incipient vitrification and then reducing this burned product to an impalpable powder. The term Portland Cement primarily means an artificial mixture. The term Natural Portland has very much the same meaning as natural artificial would have. I wish to acknowledge my indebtedness to Dr. L. W. Andrews, Ph.D., Professor of Chemistry, State University of Iowa, for his kindness in writing the chapter upon the Chemical Processes, etc., page 91, and where quotations have been made from existing publications, credit has been given in a foot note. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
