## THE SWERVE: HOW THE RENAISSANCE BEGAN

DOWNLOAD

Vintage Publishing. Paperback. Book Condition: new. BRAND NEW, The Swerve: How the Renaissance Began, Stephen Greenblatt, This title is winner of the pulitzer prize for nonfiction. Almost six hundred years ago, a short, genial man took a very old manuscript off a library shelf. With excitement, he saw what he had discovered and ordered it copied. The book was a miraculously surviving copy of an ancient Roman philosophical epic, "On the Nature of Things" by Lucretius and it changed the course of history. He found a beautiful poem of the most dangerous ideas - that the universe functioned without the aid of gods, that religious fear was damaging to human life, and that matter was made up of very small particles in eternal motion. These ideas fuelled the Renaissance, inspiring Botticelli, shaping the thoughts of Montaigne, Darwin and Einstein. An innovative work of history by one of the world's most celebrated scholars and a thrilling story of discovery, "The Swerve" details how one manuscript, plucked from a thousand years of neglect, made possible the world as we know it. Winner of the 2011 National Book Award for Nonfiction.
