This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).

Projects for the Birder's Garden from Fern Marshall Bradley and the Editors of Yankee Magazine lets you create your own private nature preserve-with dozens of ingenious ideas to turn a typical backyard into a beautiful natural habitat for birds and other wildlife. Experience the gratification of watching birds gobble seeds and other treats from your homemade bird feeder. And that's not all-there are also projects specially designed to attract beautiful hummingbirds and butterflies to your garden. Among the book's special features: - Projects require only a few simple tools and supplies and most can be easily and inexpensively assembled using only scrap materials found around the house - Information-packed sidebars include tips for identifying the nests and eggs of songbirds and unusual facts and figures about birds and bird behavior - Instructions show how to create baffles and barriers to keep squirrels, raccoons, and other unwanted guess away from the birdseed-along with projects for tending to these feeder-raiding marauders too! The simple pleasure of viewing birds in your backyard is something to treasure every day of the year.
